Bio:-

Hii! My name is Kartikeya Mishra, I'm an 18 year old Musician from Mumbai. I make music revolving around my feelings, whether that be something sad, happy or any other kind of emotion. I just want my songs to be a true reflection of how I felt when I wrote it. My music is like a personal diary for me capturing important moments and feelings, the way I portray my feelings in my songs could be interpreted differently to different people as to what I thought while making the song, and that's what makes music so beautiful! I hope you got a gist of who I am and what my beliefs are, hope to see you be a part of my journey.

ACHIEVEMENTS :-

Won the remix competition held by **BITS Pilani Goa Campus** for the event **Reverb** during Waves 21
