

Dikshant

With a soulful voice, 6 strings and a revolutionary mindset- I plan to make my mark in the Indian Music Industry.

I am Dikshant, a 21-year-old singer, songwriter, composer and producer from aamchi Mumbai. My keen eye for detail helps me narrate my personal experiences and express my feelings, making my music relatable.

"When words fail, music speaks", hence I believe creating an emotional impact is important, because what is music if not a short-hand for emotions?

The true beauty of music is that it connects people through the commonality of our experiences and feelings. I strive to create that connection with my audiences wherever I go.

My audience and supporters give me the strength to move forward, thus, along with establishing a personal connection, I love interacting and engaging with them at all times! Without that, I am simply incomplete.
